Statements of Witnesses - John D. READY, Special Agent, undated, Vol. 18, p.749.

He was on the right front door running board of the followup car.

- When they were going 20 to 25 miles an hour at about 12:30 and about 25 to 30 feet behind the Presidential car, he heard the "firecrackers" and "I immediately turned to my right rear trying to locate the source ... "

He contradicts Kellerman (p.725) and confirms the hospital personnel in saying "hospital personnel were awaiting the arrival ..."

On p.750 he has a half-page statement dated November 22 at 7:25 p.m. He also said that immediately after the first shot, the President's car slowed .

In this statement on p.749 he had said the same thing of the followup car.
